How a room works

Every room moves through the same four steps. Each screen answers one question, and the room always shows which step you are on and whether it needs you.

You act Agents act

	1 Your brief	2 Negotiation meeting	3 Decide	4 Agreement
The question it answers	**What do you need, and what may others see?**	**What are the agents working out right now?**	**Do you accept these exact terms?**	**What was recorded, and what happens next?**
You	Set required items, deadline and wishlist. Choose who sees each line.	Watch if you like. Pause your agent, guide it, or answer its questions.	Read the terms, the checks and what changed. Approve, or leave it pending.	Check the change order and budget impact. Mark your tasks done.
Agents	Your agent reads your brief. It never shares a line you kept private.	Provider's agent drafts proposals. Each agent checks them against its person's brief. Code runs the rule checks.	Your agent suggests. A suggestion never counts as approval.	Done. The record shows what each agent did, not hidden reasoning.
When it needs you	Before the meeting starts.	Only when your agent raises its hand: a choice your brief does not settle.	Always. Nothing is recorded until every required person approves.	When a task is assigned to you.
Where in the app	My brief tab	Workbench tab, as a meeting room	Proposal page from the Needs you prompt	Results tab

If a brief changes after step 2, for example Finance lowers the budget cap, the room goes back to the meeting. Earlier approvals are marked "No longer applies" and everyone decides again on the new version.

Needs you

Do you accept these exact terms?

Proposal v1 under constraints v1. Nothing is recorded until Provider, Finance and you all approve.

How the meeting got here

Replay the meeting

9:02	**Finance** shared a budget cap of $5,000.00.
9:04	**Provider's agent** proposed v1: all three items for $900.00, delivery Nov 18, 2026.
9:05	**Your agent** checked v1 against your brief and suggests accepting.

The terms

Simulated

Total	Delivery	Your deadline
$900.00	**Nov 18, 2026**	**Nov 20, 2026**

Item	From your brief	Price
SSO login (SAML)	Required	$500.00
Audit log export	Required	$300.00
Usage dashboard	Wishlist	$100.00
Total		**$900.00**

Not included from your wishlist: Slack alerts.

Checked by code against constraints v1

- ✓ Required items are included.
- ✓ Delivery is on or before Nov 20, 2026.

C **Your agent suggests accepting.** Required items arrive before your deadline.
Suggestion only, never counted as approval.

Your decision

When all three people approve, Speak for Me records:

- 1 change order
- a +$900.00 budget commitment
- 3 tasks

Internal records only. No payment, transfer or e-signature.

P	**Provider** Has not decided on v1	Pending
C	**Customer (you)** Has not decided on v1	Pending
F	**Finance** Has not decided on v1	Pending

Approve v1 under constraints v1

Drafting v2 under constraints v2

Other parties' briefs and limits never appear here.

Q4 portal scope change (simulated)

Accept the terms of proposal v1?

These exact terms under constraints v1. Nothing is recorded until Customer, Finance and you all approve.

How the meeting got here

9:04	**Your agent** proposed v1: three items for $900.00, delivery Nov 18, 2026.
9:05	v1 is ready for approval.

The terms

Simulated

Total
$900.00

Delivery
Nov 18, 2026

Item	Price
SSO login (SAML)	$500.00
Audit log export	$300.00
Usage dashboard	$100.00
Total	**$900.00**

Fit under constraints v1

✓ Fit: ok

You see whether the proposal fits, not why. Other parties' limits stay private.

Your decision

When all three people approve, Speak for Me records:

- 1 change order for $900.00
- 3 tasks for you: Implement SAML SSO login, Build audit log CSV export, Build usage dashboard

Internal records only. No payment, transfer or e-signature.

P	**Provider (you)** Has not decided on v1	Pending
C	**Customer** Has not decided on v1	Pending
F	**Finance** Has not decided on v1	Pending

Approve v1 under constraints v1

Approve needs backend

Q4 portal scope change (simulated)

Needs you

Proposal v1 · Constraints v1 · Viewing as Finance

My brief

Only you

Budget cap	**$5,000.00** Shared with Customer
Committed	**$4,000.00** Private
Headroom	**$1,000.00** Private

Approvals on v1 right now

P **Provider** — Approved v1 under constraints v1 — Approved

C **Customer** — Approved v1 under constraints v1 — Approved

F **Finance (you)** — Has not decided on v1 — Pending

Update budget cap

Current cap $5,000.00. Nothing changes until you confirm.

New budget cap (USD)

4,800 Review impact

If you change the cap to $4,800.00

- Constraints become v2.
- **Proposal v1 will no longer fit the budget (over by $100.00), so it will no longer apply.**
- 2 approvals will no longer apply: Provider, Customer.
- This restarts the negotiation. Agents will renegotiate automatically.

P **Provider** — Approved v1 under constraints v1 · will no longer apply — ~~No longer applies~~

C **Customer** — Approved v1 under constraints v1 · will no longer apply — ~~No longer applies~~

Change the cap to $4,800.00 Keep $5,000.00

The impact is checked only for the current proposal. It does not say whether other options would fit.
